

# BACK TO A DESIRABLE FUTURE

## Exploring Italy

In this presentation we will illustrate what has been done during this wonderful week, in which 23 young people from French, Denmark and Germany have visited the Italian school and cities.

### Programme

**Monday:** arrival of The participants

**Tuesday:** visit of Roccapiemonte

**Wednesday:** Trekking activity at the Holy Mary hermitage

**Thursday:** departure to the University of Salerno and Caserta

**Friday:** visit of The City Hall and of The city of Salerno

**Saturday:** departure of The participants

# FIRST DAY

## Morning

On the morning of 4 November 2025, we stayed at school, where we took part in several group activities focused on creating stories about climate change. Working together helped us share ideas, collaborate, and understand different points of view. After finishing the activities, we all had lunch together at school, enjoying a relaxing moment before continuing with the programme.

## Afternoon

In the afternoon, we first visited the school's greenhouse at Palazzo Marciani, where we learned about its plants and environmental projects. Afterwards, we went to Villa Ravaschieri, a historic palace in Roccapiemonte that once belonged to the duke of the city. Walking through its rooms and gardens allowed us to appreciate its history and cultural importance. All activities concluded at around 6 pm.

## Evening

In the evening, we had some free time after the full day of activities and we all went out together to Roccapiemonte, we walked around the city and spent some time in a bar.

# SECOND DAY

## Morning

On the morning of 5 November 2025, we hiked up the mountain of Roccapiemonte. After about thirty minutes of walking, we reached the top, where we took part in several group-building games that helped us connect and work as a team. We also visited the small church on the mountain, learning about its history and enjoying the peaceful atmosphere. Before heading back down, we all shared a buffet lunch.

## Afternoon

In the afternoon, we returned to school. There, we continued working on our “Better Future” storytelling projects. Everyone focused on finishing their ideas, polishing the final details, and preparing the last part of the presentation. It was a productive and creative moment for all of us.

## Evening

In the evening, we went for a walk around the town of Nocera inferiore. The streets were lively and full of energy. We stopped at Soqqquadro for an aperitif, where we enjoyed drinks and snacks while talking, laughing, and sharing impressions of the Erasmus experience. It was the perfect way to end the day.

# THIRD DAY

## Morning

On the morning of 6 November 2025, we went to visit the university of Fisciano, Unisa. Here, after the explanation and introduction to the university by many professors, we began to take a tour of it. We visited the large bookshop, witnessed robot dogs dancing and seeing how the lesson was conducted in a classroom. At the end of the activities we went to eat at the restaurant.

## Afternoon

After we finished eating, we left for the University of Caserta. Once we arrived we were able to attend the lecture by Professor Giovanna Battipaglia, about eco-sustainability and climate. The in-depth and interesting lesson has caused thoughts and questions on the topic. After concluding the explanation we left the university and returned in Roccapiemonte.

## Evening

In the evening, we met in Roccapiemonte where we ate and spent this moments together after a long day. Time passes quickly when you are with others sharing feedbacks and between a laugh and a joke, this other day has passed too.

# FOURTH DAY

## Morning

On the morning of 7 November 2025, we walked at Roccapiemonte's Hall to go and exhibit the storytelling produced in the other days, to establish a winner among them. The stories represent the commitment and sensitivity of the students in writing and dealing with such timely and sensitive topics.

The jury, after listening to the presentation of all the groups, established the winners.

After finishing the awards ceremony and after given the certificates we had lunch.

## Afternoon

After we finished eating we took the bus to go to the beautiful city of Salerno. Here we visited Piazza della libertà and the maritime station. After this we walk to go visit the cathedral of Salerno. Then in a free time we could freely experience the city, walking, eating ice cream and enjoying the view of the sea. After finishing the activities we returned to Roccapiemonte by bus.

## Evening

In the evening we met under the arcades of Cava de tirreni to eat street food and have one last time of fun before the departure of the participants. Exchange of ideas, impressions, jokes, were the center of the last evening that will surely not be easily forgotten by all of us.

# Thank you!

**FOR THIS WONDERFUL  
EXPERIENCE**

We are glad we have done such a  
beautiful experience  
and we
